QANTEON

OUR SOLUTIONS

FOR HOSPITALS

**Saves energy costs and reduces CO₂ emissions –
enhances comfort and hygiene**

SMART TECHNOLOGY

FOR BETTER HEALTHCARE

AND GREATER COST EFFICIENCY

Hospitals are very complex. In addition to patient rooms, treatment rooms and operating rooms, they house a number of other units, such as laboratories, offices, kitchens, laundries, cold rooms, equipment rooms and storage rooms. Hospital operators are faced with the challenge of offering their patients and employees an optimal environment while at the same time operating their facilities in an economically sound manner.

QANTEON IN HOSPITALS

OUR BUSINESS – YOUR ADVANTAGES

- ✓ Quick and clearly structured recording of individual room situations and energy consumption with en:key
- ✓ Adaptation of room comfort according to the patient situation and level of care required
- ✓ Stored alarms indicate quickly and clearly when action is required
- ✓ Maintenance reminders are generated automatically, e.g. for passenger elevators
- ✓ Good return on investment thanks to cost savings, optimized operations and improved process efficiency
- ✓ Full utilization of potential savings, e.g. CO₂, energy
- ✓ Cross-property monitoring for efficient operation and ISO 50001 certification
