QANTEON

OUR SOLUTIONS

FOR HOSPITALS

**Saves energy costs and reduces CO₂ emissions –
Enhances comfort and hygiene**

SMART TECHNOLOGY

FOR BETTER HEALTHCARE

AND MORE COST EFFICIENCY

Hospitals are very complex. In addition to patient rooms, treatment rooms and operating rooms, they house a number of other units, such as laboratories, offices, kitchens, laundries, cold rooms, technical equipment rooms, storage rooms. Hospital operators are faced with the challenge of offering their patients and employees an optimal environment while at the same time operating their facilities in an economically sound manner.

QANTEON IN HOSPITALS

OUR BUSINESS – YOUR ADVANTAGES

- ✓ Quick and clearly-structured recording of individual room situations and energy consumption with en:key
- ✓ Adaptation of room comfort according to the patient situation and level of care
- ✓ Stored alarms provide quick and clear indications if there is a need for action
- ✓ Maintenance reminders are generated automatically, e.g., for passenger elevators
- ✓ Numerous benefits from savings to operational optimization and operational process support make the investment worthwhile
- ✓ Utilization of savings potential, e.g. CO₂, energy
- ✓ Cross-property monitoring for efficient operation and for ISO 50001 certification

We will be happy to answer your questions.
